WORK HISTORY

Data Analyst O&M

Dec 2022 until now

Athon

I work in data management for Athon's photovoltaic plants, adding intelligence to the collection and analysis of our projects. Responsible for structuring the O&M database, managing ETL processes and generating data visualization.

Full Stack Developer

Sep 2021 - Dec 2022

Athon

I worked on the development of PowerRev, a web platform that manages invoices and energy management for generating companies or large consumers. Contributed to several areas of web development, using Flask, Node.js, Docker, MySQL and AWS

Communication Director

Mar 2020 - Nov 2021

Academic Center of Electrical and Computer Engineering (CEE)

I contributed to structuring the 100% online dissemination of the academic center's projects, work that was done organically. I collaborated for 3 years in organizing the Academic Week of Electrical and Computer Engineering, SEnEC

EDUCATION

Electrical Engineering with an emphasis on Computing

Jan 2018 - Dec 2023

Escola Politécnica - Universidade de São Paulo

I was a student representative in the Computing and Digital Systems department and director of men's volleyball.

GOALS

I've worked as a full stack developer and as a data analyst, what gave me the opportunity to work with several technologies, such as Python, JavaScript, Docker, AWS, SQL, NoSQL, Kafka, Power BI and others

SKILLS

Systems administration
Process automation
Database management
Data extraction, processing and analysis
Team work
